## TWINS: SIMPLY MACHINES

Since 1995 our company produces assembly and testing machines for:

### Assembly

CNC Screw-driving  
O-ring assembly  
Adjusting  
Pinning  
Greasing  
Bond dispensing  
Complete assembly

### Testing

High and low pressure leak test  
Gas and fluid flow test  
Torque and angle  
Force and displacement  
Linear and diametrical measurements  
Visual camera inspection  
Functional test

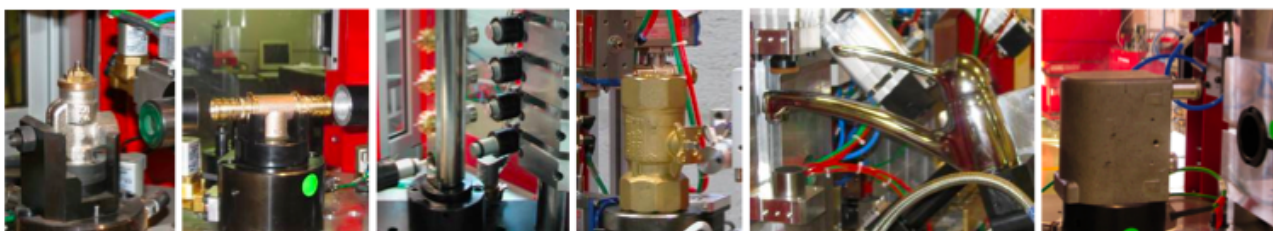

Our machine fleet includes small bench machines, linear machines and CNC turntable machines.

Our competitive advantage is to offer machines, which are produced in series, customized according to the need of the customer through the use of fixtures.

This allows us to grant a high reliable products, a short and well defined delivery time at a competitive price.

Some segments where you can use our machines are:

Hydro-thermo sanitary, water and gas taps, die casting
