

Otter

Stove Controls

The Otter Stove Control

Brookhaven Wood Heater Design
Challenge - Finalist 2022

Reduces emissions & improves efficiency
Purely mechanical design
Automatic control

Core Features

Full combustion
Optimises temperature for clean burning

Fully automatic
Improved user experience

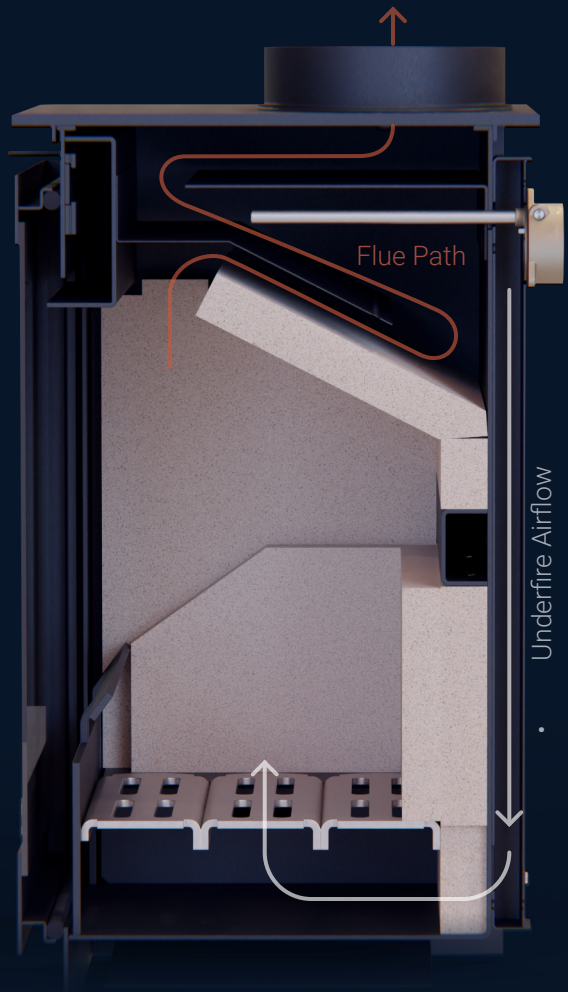

Fully mechanical design
No electronics required

Overfiring resistant
Survives over 1600°F

Direct sensing
No bimetal or capillary systems

Highly robust
Brazen steel and brass construction

No nonsense
Simple and cost effective design
